SUMMER HOLIDAYS

**HOMEWORK!
2022-23**

Wake up, wake up!
It's homework time,
Remember you promised to start by nine,
I heard my mother uttering these lines,
I think beginning the task on time,
keeps me alert, active and fine.
Regular homework makes me shine!

Dear parents,

Children are born with natural curiosity and inquisitiveness about the world around them. It is important for us to help them keep this spark alive and to make learning fun.

As the summer vacation has begun some fun-filled activities have been planned for the little ones, to enhance their learning skills in a fun-filled way. All these in addition to the 'quality time' spent by the parents with the children, as they guide them through these activities, will indeed make their vacation time more fun and fruitful.

Keep your little ones indoors in the current scenario and utilize their time with constructive and creative activities that would help the children to learn the new concepts and revise the previous ones, here are some tips for the parents to engage their kids regularly:-

- Children love listening to stories and read stories aloud to them regularly. Help the children to talk about pictures. Encourage your child in the following activities for the enhancement of fine motor skill- Coloring/playing with clay or dough/sorting pulses or bread/scribbling on newspaper.
- Encourage your child to use magic words -Thank You, Sorry, and Please.
- Wake up early as the sun rises. Love nature and nature will love you back. Keep a bowl of water outside on the balcony for birds to drink water.
- Encourage your child to converse in English.
