### A SUMMER SYMPHONY: AN OVERTURE TO UNLEASHED CREATIVITY

Dear Readers,

As the final crescendo of the academic year echoes through the halls, we find ourselves at the threshold of a season that promises infinite possibilities—the enchanting summer break. With the sun as our muse and the canvas of time stretched before us, let us embark on a symphony of self-discovery, where the melodies of new skills and the harmonies of boundless creativity intertwine.

In the clamour of deadlines and academic pursuits, we often yearn for respite—a gentle reprieve that allows our spirits to soar and our imaginations to dance. Summer offers us an exquisite chance to immerse ourselves in the world of knowledge and embrace the allure of unexplored horizons. Unleash your inquisitive spirit and dedicate moments to delve into the realms that pique your interest, be it the enigmatic cosmos, the captivating strokes of a paintbrush, or the captivating world of words.

Within each of us resides an artist waiting to be unveiled, the creative prowess eager to burst forth. As the Sun bathes the world in golden hues, let your imagination shine radiantly. Paint landscapes with the strokes of your brush, weave tales that whisk the readers away on captivating journeys, or fashion poetry that resonates with the very depths of the human soul. Share your artistic expressions with us, as we come together to celebrate the kaleidoscope of talent that adorns our school community.

Amidst this symphony of self-expression, let us not forget the rhythms that nurture our souls. As each day unfurls, create a symphony of structure, weaving a tapestry of routine that embraces the joy of a well-scheduled existence. Allocate time for learning, creating, and embracing leisure. In this symphony of time, discover the harmony between productivity and serenity, as each note resonates with purpose and fulfilment.

As we take a hiatus to greet the summer break with open hearts and eager spirits, may your vacation be a celebration of discovery and wonder, where dreams take flight and passions find new depths. We eagerly await the chapters of your stories, the your poems, and the masterpieces of your artwork to grace the pages of our collective symphony. Together, let us create a crescendo of talent and inspiration, transforming this summer into a masterpiece that will echo our creativity.

In the gentle embrace of the Sun's golden rays, let the symphony of your creativity begin.

# PRINCIPAL'S DESK

## Dear Readers,

Once again we come to the eagerly awaited the joys of the summer break, let us use this time as a canvas for self-discovery, growth, and endless possibilities. The sun shines brighter, the days grow longer, and nature beckons us to venture into uncharted territories of knowledge and creativity. This summer, let us embark on a journey to nurture our minds, bodies, and souls, and unleash the artists, writers, and thinkers within us.

In the whirlwind of daily routines and academic demands, we often find ourselves yearning for a breather—a pause to reconnect with our passions and explore new horizons. The summer break offers us just that opportunity. Instead of succumbing to idleness or monotony, let us seize this time to learn new skills and engage in the activities that stimulate our minds. Dedicate a few hours each day to delve into subjects that intrigue you, whether it's astronomy, photography, or coding. Pursue your passions and delve deep into the fascinating realms that ignite your curiosity.

While exploring our creative selves, let us not forget to prioritize our physical well-being. Engage in a fitness regime that suits your interests and keeps your body active and strong. Be it swimming, cycling, yoga, or any other form of exercise, find joy in staying fit. The heat of the summer sun offers is not conducive to outdoor activities, allowing you to connect with nature and rejuvenate your spirit. To make the most of this summer break, it is essential to cultivate a well-scheduled daily routine. Allocate specific time slots for learning, creating, and pursuing physical activities. Structure your day in a way that balances work and play, allowing for productivity and relaxation. By following a routine, you will find a sense of purpose and accomplishment in each passing day, ensuring a fulfilling summer experience.

We bid you a summer vacation filled with joy, wonder, and exploration. Embrace the warmth of the sun, the beauty of nature, and the boundless opportunities that lie ahead. Discover your hidden talents, express your thoughts, and embark on a journey of personal growth and fulfilment.

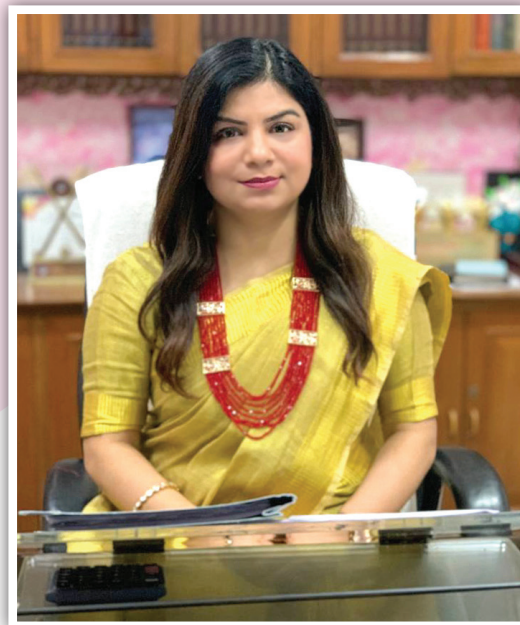

Remember, the canvas is blank, waiting for you to paint the masterpiece that is your summer break. We eagerly anticipate your stories, articles, poems, and artwork, which will grace the pages of our next magazine issue. Let your creativity shine, and together, let us create a vibrant tapestry of talent and inspiration.

Wishing you a summer of endless possibilities and unforgettable experiences.

Best Wishes

# CELEBRATING SUCCESS IN BOARD EXAMS

## BEAT THE HEAT

On Friday, 19th May, 2023, the Pre -Primary students of GIS celebrated “Beat The Heat” with great enthusiasm and excitement. The students came in comfortable casual clothes for the party and had a wonderful time engaging in various fun activities. The highlights of the day being the dance party and enjoying refreshing drinks. They also had ample time to talk and play with their friends, which added to the party atmosphere of the day. It was a fun and interactive experience for them.

## MY IDENTITY-(SELF-INTRODUCTION COMPETITION)

“My Identity “ the Self-introduction Competition was organised for the students of class LKG and UKG . It is important to introduce oneself because it shows one's ability to meet new people confidently. The objective of the competition was to develop speaking skill among children. This activity helped the students to enhance their vocabulary and oratory skills. It was an amazing experience for our tiny tots.

They succeed, because they think they can.

# NANHE CHITRAKAAR

GIS celebrates every moment of our life with vibrant colours of nature. They are the source of joy and happiness for everyone. Pre-Primary Department of Ganga International School organised Nanhe Chitrakaar Colouring Competition for LKG and UKG classes. The little artists participated in the competition with great zeal and enthusiasm and at the same time took great care to colour their masterpieces with their creativity. The students coloured beautifully on the picture given to them and exhibited their skills by filling colours in them. The fun they had is certainly going to add a new innings to their colourful childhood memories.

THE RESULT IS AS FOLLOWS :

## Ganga International School Introduces Innovative Augmented Reality Metaverse 360 for Gen.Z

Ganga International School Hiran Kudna, recently introduced an innovative educational tool known as Augmented Reality Metaverse 360. This technology offers the students a captivating and immersive experiential learning. The students from classes I to X were thrilled as they embarked on 'An inspiring Journey from Earth to space,' through Metaverse 360. The aim is to enhance their understanding of astronomy, foster a love for exploration, and ignite their curiosity about the universe. The Founding Chairman Dr. Sushil Gupta, the Chairman Mr. Bharat Gupta and the Principal Ms. Swati Joshi, have been relentlessly upgrading education at GIS, by constantly implementing the latest technology and introducing innovative strategies for accelerating the learning of the students.

The Augmented Reality Metaverse 360 experience takes students on a virtual journey through the cosmos, providing a unique opportunity to explore space like never before. Equipped with advanced augmented reality headsets, students are transported to different celestial bodies, such as planets, stars, and galaxies. The students excitedly began their virtual journey with a close-up exploration of Earth, and witness the beauty and fragility of our planet. They also observed natural wonders, like the Great Barrier Reef and the Amazon rainforest, and gained a deeper appreciation for the importance of environmental conservation. By interacting with the AR projections, students can manipulate planetary movements, observe gravitational forces, and comprehend the complexity of our celestial neighborhood. The introduction of Augmented Reality Metaverse 360 at Ganga International School has garnered overwhelmingly positive reactions from the students. Here are some notable responses: Students as well as the faculty have expressed great enthusiasm and excitement during the Metaverse 360 sessions. The immersive nature of the experience captivated their attention and keep them engaged throughout the journey. They eagerly explored each celestial body, asked questions, and actively participated in discussions with their peers and teachers. Ms. Meenu Kapoor, a seasoned teacher, felt that the students have 'Increased Understanding and Retention'." The use of augmented reality technology has significantly improved students' understanding and retention of complex astronomical concepts. The visual and interactive nature of the Metaverse 360 experience allows students to grasp abstract concepts more easily,

leading to a deeper understanding of the subject matter." Mr. Rahul Drall, who has put in years to groom the students said, "The Augmented Reality Metaverse 360 experience has sparked a sense of inspiration and curiosity among the students. They have developed a newfound interest in space exploration and astronomy, expressing a desire to learn more about the universe and its mysteries. Some students have even shown interest in pursuing careers in STEM fields related to space and astrophysics. Niti Sharma a student of VIII, told that Metaverse was a breathtaking experience. "Exploring the universe and exo-planets was my favorite. It was a unique experience to look at the Earth's clone planet. It was amazing! Kirti Chawla of VB gushed excitedly "What a wonderful experience to travel through the cosmos! I saw space shuttles, milky way, the Sun and stars. Thank you GIS". The introduction of Augmented Reality Metaverse 360 at Ganga International School has revolutionized the way students learn about space and astronomy. This immersive experience has not only enhanced their understanding but also inspired a sense of wonder and curiosity. By combining cutting-edge technology with educational content, GIS has successfully created an engaging and transformative learning environment. The Metaverse 360 experience empowers students to explore the universe, igniting their passion for science and instilling a lifelong love for learning.

Victory has a thousand fathers, but defeat is an orphan.

## GIS HOLDS AN ENTHUSIASTIC PARENT-TEACHERS MEET.

Ganga International School, Hiran Kudna organised the first Parent-Teacher Meet on 6th May 2023. The campus was abuzz with the excited parents, chirping students and highly motivated teachers. The school was immaculately decked up, and had a festive look. Indeed, at GIS, meeting the parents is no less than a celebration, as they are the partners in progress. The school organised a display of the new ventures for the new session. GIS has initiated a lot of activities for holistic development of the students. These include Smart Classes, AI and Robotics Classes. In addition, Communication Skills Classes, Sustainable Development, Abacus Vedic Maths, Addressing Health have also been started, which are becoming increasingly popular among the students and parents. GIS has a futuristic vision for Gen Z and has started imparting 21st century skills for the students like Financial Literacy and Entrepreneurship for Secondary and Senior Secondary section.

These novel initiatives by the school mentor Mr Sushil Gupta,

Chairman Mr. Bharat Gupta, Director Colonel Ashok Kaul and the Principal Ms Swati Joshi are going to empower the students to be future leaders. The Management thanks the parents for the overwhelming response to the first PTM.

# SUMMER VACATION - A GREAT OPPORTUNITY TO RELAX

Summer vacation is a great opportunity to relax, have fun, and learn new things, instead of wasting time by watching TV, playing video games, or sleeping all day long. This can make them bored, lazy, and unprepared for the next academic year. Therefore, it is important to use summer vacation productively and creatively. Here are some ways to do that:

**Set some goals:** Before the summer begins, think about what you want to achieve or learn during the vacation. It can be anything from reading a book, learning a new skill, improving your grades, or making new friends.

1. Write down your goals and keep track of your progress. This will help you stay motivated and focused throughout the summer.

**2. Get Organized:** Summer vacation is a good time to declutter your room, sort out your clothes, and organize your books and stationery. You can also make a schedule for your daily activities, such as waking up, studying, exercising, and relaxing. Having a clean and tidy environment and a regular routine will make you feel more comfortable and productive.

**3. Get active:** Summer vacation is also a good time to stay fit and healthy. You can join a sports club, go for a swim, take a hike, or ride a bike. Physical activity will not only improve your mood and energy levels, but also your brain function and memory. You can also try some indoor exercises, such as yoga, dancing, or aerobics, if the weather is too hot or rainy.

**4. Get Creative:** Summer vacation is also a good time to explore your creativity and imagination. You can write a story, draw a picture, make a scrapbook, or document your summer experiences in a video or a blog. You can also learn a new hobby, such as playing an instrument, cooking, gardening, or knitting. Creativity will help you express yourself, develop new skills, and have fun.

**5. Get Social:** This is an opportunity to make new friends and strengthen existing relationships. You can plan a picnic, a sleepover, a movie night, or a game night with your friends. You can also visit your relatives, especially your grandparents, and spend some quality time with them. Socializing will help you improve your communication skills, emotional intelligence, and happiness.

By following these tips, you can make the most of your summer vacations and have a memorable and rewarding time. You will also be ready to face the new academic year with confidence and enthusiasm. Remember that summer vacations are not only for fun, but also for learning and growing as a person. So use them wisely and enjoy them fully!

## A MONTAGE OR MEMOIR

Still, now not  
that very one second cracked  
down spilled thousand realms  
seeping in the arcane voids  
up to the brim yet more  
How could it be?

That a mass of flesh and bones  
flashed billion spheres agone,  
in the eyes of the vulnerable  
stirred up its tranquil  
Splashed on its canvas  
hues of yore

Never did they cohere  
as cyan and ochre  
What should I call it,  
a montage or memoir?

on a heap of silent screams  
enveloped in those scrawls  
Letters with no words,  
words with no sound  
An answer to this daze,  
is nowhere to be found.

In all this drew a blue smile  
more or less that creeps  
The figure yet unaware,  
scribbles and leaves.

## THE SONG OF LIFE

My life shall never go in vain,  
but sooner or later my clothes will  
Since it is born to mix with soil.  
Rhyming the song of life to all  
May you cry for source to follow  
but I shall be the star that you could follow This  
may not mix up with my clothes but shall be  
repeated to you all  
May my existence fade away with time but I shall be  
shining like the sun even the moon in dark  
My wealth shall dry, my pride shall shy  
flowing with time,  
May I be no more there with you all  
but the love shall rise from the heart you  
adore

तो क्या बड़ी बात हो जाए  
रखती है वह मेरा ध्यान बड़ा,  
रोते हुए नहीं देख सकती मैं उसका  
चेहरा।

## “माँ”

जिसने चलना सिखाया,  
वो हैं माँ  
जिसने मुसीबत में सामना करना सिखाया,  
वो हैं माँ  
जो सही गलत का फर्क बताए  
वो हैं माँ  
जो अंतिम साँस तक दे साथ  
वो हैं माँ  
जिसकी डाँट में भी हैं प्यार  
वो हैं माँ  
जो चाहे मुझे खुद से ज्यादा  
वो हैं माँ  
और क्या ही कुछ उसके  
बारे, जो सब जाने  
वो हैं माँ
